Dr. Moon and Linda have been taking care of me for 12 years now. I trust them completely. That says everything. They tell you the truth. I recommend Cornerstone Dental to anyone looking for quality dental care. I had some gum issues and Linda worked on me and brought me back to health. Dr. Moon does not rush in and do unnecessary procedures. She takes her time and evaluates the situation. You can trust her opinion. She is an excellent dentist.

I almost considered not deploying and finding another job because my previous experiences with dentists were so horrible. When I thought she was going to start prying out my tooth she showed it to me in her hand. I was amazed there was no pain and struggle to pull my tooth. I could go on and on about her, but the most important thing is that if you are seeing another dentist you should run not walk out of their office and get to Dr. Sue. I am actually looking forward to seeing her after my deployment. It doesn't matter where in the world I am I will get dental work done in Leesburg Va.

Wow! I've had 2 wisdom teeth removed by other dentists in the area, the ordeal included numerous shots of novacaine, twisting, prying, pulling, more shots, etc. Both times were nightmares. This time I saw Dr. Moon and was very apprehensive at first. Her assistant assured me that she was very good, he was wrong. She is way better than very good. After the medication took affect she was in my mouth for a couple seconds, I thought just testing the numbness. I was ready for her to begin the process when she showed me my tooth in her hand. Dr. Moon is the greatest!!! Not only will I refer her, but I feel like calling all my friends just to tell them how awesome she was. Words cannot express my gratitude. 감사합니다

I value this practice for its focus on dental health - which they do well. They do not try to maximize revenue by engaging in predatory tactics to push unnecessary dental work or up-selling cosmetic dental work. Cosmetic work is available if desired, but you are not made to feel like you must be a Ken or Barbie to be acceptable in this society. They are professional, thorough, and run a good straight-forward practice.

Even making the appointment was hard for me, but they were SO understanding on the phone, completely encouraging when I got there (what made me actually feel great was at the front desk, one of the staff members had anxiety too!) and sympathetic. I had an awesome visit - and I say this after having a root canal! My children and I have been going there for about 5 years and they have always been amazing. I originally visited Drs. Lee and Moon along with my toddler for consultations (mine was based on an evaluation held elsewhere where I was told I had 4 cavities - all of which were part of my only 4 existing cavities from youth). The doctors confirmed and indicated that 2 of my cavities needed fixed sooner than the other 2. I went in and had the first two done and the experience went well. I didn't fully take to the Novocaine for my bottom tooth, so the Dr. was patient and worked on the top while added Novocaine took effect. They stayed later than closing time to finish me up properly and with good care. I will be returning to Leesburg Dental Care for future dental work.

This has to be the roughest dental procedure ever experienced. The tooth was abscessed and the first shot had no effect so several more followed. Even during the extraction shots were input directly into the tooth or root. Dr. Moon is a very nice little lady but just did not have the strength to pull the tooth. She finally got the job done but in pieces and a lot of pain on my part.

One suggestion I would make, which is a general suggestion to all medical offices is a means for pre-registering online and filling out all of that paperwork before the visit. This would speed up the overall experience, reduce dual data entry and provide a great "high tech" feel.

Both Drs. Lee and Moon are great dentists. My kids and I have been received great dental care. I especially appreciate how they are gentle and kind to my kids who are nervous about visiting any dentist. I never have to wait more than a few minutes in the waiting room and the staff is very friendly.

This dental practice provides excellent customer service and care. All staff are highly sensitive to the needs and concerns of patients. Across the board, the staff approaches patients with gentle compassion and professionalism. They are extremely skilled and efficient and completely open, direct and fair when it comes to treatment plans and patient payment responsibility. I highly recommend this practice especially to those who may face some anxiety about dental visits.

I have gone to this dentist two times within 3 months and I have great service with my teeth. My first was cleaning and let me tell you, you actually get your teeth clean thoroughly! I have gone to other dentists and its always a rush job. My dentist actually spends quality time with cleaning my teeth. I wish I had found them years ago. When making appointments you can actually get in within a week and not 2 months like other dentist. Thankfully, I kept searching and found my dentist.

This was my very first visit and I am so glad I trusted my friends referral to go to Dr. Lee. Every single person in the office was very pleasant and informative. I loved that the receptionist took the time to break down my bill BEFORE they began to work on my teeth. Dr. Lee is a true dental artist! He was patient, gentle, caring, friendly, and listened to my concerns and addressed them right away. The dental hygienist was great too! She was very cautious to not overwhelm me with the utensils. I'm actually looking forward to going back to get the rest of my fillings taken care of. Thank you Dr. Lee and the entire office!
